

1 Connect HePoEx EHR™ - Press Release

St. Louis, MO – January 6th, 2011: Darena Solutions™ today announced that their 1 Connect HePoEx EHR has been certified as an EHR Module by InfoGard Laboratories, an ONC-ATCB, in accordance with the applicable eligible provider certification criteria adopted by the Secretary of Health and Human Services. The 2011/2012 criteria supports the Stage 1 meaningful use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).

HePoEx is a framework developed by Darena Solutions to design custom solutions based on Microsoft Cloud technologies. Microsoft Cloud Services are available as an affordable monthly subscription eliminating any huge upfront costs on IT infrastructure.

"HePoEx™ is one of the first EMR applications to be built to take advantage of Microsoft® Online Services™. Customers of HePoEx™ will have the opportunity to experience benefits from this cloud-based solution including: fast deployment, ease of access, and redundancy of datacenters. Microsoft® is excited for this strategic alliance with Darena Solutions™ in providing this solution to the healthcare industry," Says Kevin Miller, Technology Specialist, Microsoft® Online Services™."

"We had two failed EMR implementations and were skeptical of trying to go digital again. We were impressed that the forms and workflows in HePoEx were completely designed to adjust to our workflow and not other way around. This simply represents our current methods turned electronic from paper; so we don't have to learn a new system." says Dr. Steve Dresner from Urology Associates of Central Missouri, an early adopter of 1 Connect HePoEx EHR.

"We are proud to offer a certified EHR that brings together cloud versions of Microsoft's most trusted communication and collaboration products and the flexibility of the innovative HePoEx framework to provide cost effective solutions for healthcare organizations of all sizes" said Dr. Pawan Jindal, Technology Evangelist at Darena Solutions.

1 Connect HePoEx EHR certification number is IG-2426-10-0012. 2011/2012 Certification conferred by InfoGard Laboratories does not represent an endorsement of the certified EHR technology by the U.S. Department of Health and Human Services nor does it guarantee the receipt of incentive payments.
