

A photograph of a medical office. In the foreground, a female doctor with dark hair, wearing a white lab coat and a stethoscope, smiles warmly at the camera. In the background, two other medical professionals, a man and a woman, are seated at a desk with a laptop, working. A large window is visible behind them, letting in bright light.

Practice Management Solution

The Unifi-Med Practice Management Solution can help you manage your practice and exceed the expectations of your office and patients. Complete with state-of-the-art patient scheduling, automated claims and payment processing and the advanced reporting tools needed to participate in national studies, Unifi-Med helps you create an efficient, effective office. Our fully integrated Practice Management Solution is designed to support providers and their patients anytime, anywhere.

Practice Scheduling

The Unifi-Med practice scheduling system gives you the ability to customize appointment types by resources and time requirements. Through the in-office patient status notification, you can monitor patient wait times and improve office flow.

PATIENT CENTRIC SCHEDULING KEEPS YOU ON-TRACK AND ON-TIME.

Records Management and Reporting Tools

Unifi-Med provides powerful search engines and reporting tools to capture important patient information. In addition, Unifi-Med provides the ability to retrieve information and analyze the financial health of the practice.

SAVE TIME, RETRIEVE DATA, ACCESS VALUABLE INFORMATION FOR YOUR PATIENTS AND YOUR PRACTICE.

Claims Processing (EDI) and Billing

Unifi-Med expedites claim submission and payment with the use of EDI. Auto-submit primary and secondary claims directly from your fee tickets. Receive electronic EOB's and payments to the practice's account with the push of a button.

WITH EDI, ELECTRONICALLY SUBMIT DETAILED INFORMATION, EXPEDITE CLAIMS, GET PAID SOONER.

eFax

HIPAA compliant, eFax replaces the fax machine for the transmission and receipt of data and adds powerful routing capabilities. Without printing a single sheet, one fax can be split into individual pages, or portions of pages, and routed to patient records or individuals within the practice. Ongoing storage of all faxes insures a page is never lost or misplaced.

TRANSMIT INFORMATION, ROUTE IT TO WHERE IT NEEDS TO BE, COMPLETELY PAPERLESS.

Cloud Technology

Cloud Technology

Patient Name	Date	Time	Status
John Doe	10/15/2010	10:00 AM	Completed
Jane Smith	10/16/2010	11:00 AM	Pending
Bob Johnson	10/17/2010	9:00 AM	Completed
Alice Brown	10/18/2010	12:00 PM	Pending
Charlie White	10/19/2010	2:00 PM	Completed

Appointment Scheduling

Patient Name	Date	Amount	Status
John Doe	10/15/2010	\$150.00	Submitted
Jane Smith	10/16/2010	\$200.00	Pending
Bob Johnson	10/17/2010	\$100.00	Completed
Alice Brown	10/18/2010	\$300.00	Pending
Charlie White	10/19/2010	\$120.00	Completed

Claims Submission

Practice Scheduling

- Color code and customize appointment types by resources and time requirements
